

Press Release | deugro group

deugro group Received Further OHSMS and EMS ISO Training Course Certificate

London, UK, December 04, 2023 – After participating in the first-ever certification event by DNV UK's Business Assurance team, alongside their training partner Temple, deugro group was presented with their latest OHSMS ISO 45001 & EMS ISO 14001 Combined Auditor Conversion Training Course certificate.

deugro group received this certificate following on from achieving the necessary standards within all the remits that the training required. ISO 45001 is the most recognized and widely used management system standard for health and safety worldwide and is implemented by thousands of organizations to manage and mitigate occupational health and safety risks.

DNV's Training Business Development Manager, Mark Clewley says: "It was fantastic to have deugro group join us at this first-of-its-kind event for us. It's great to see deugro group demonstrating their best-in-class commitment to advancing their health and safety training knowledge and staying up to date with the latest advancements within their sector by undertaking this training."

The OHSMS ISO 45001 & EMS ISO 14001 Combined Auditor Conversion Training Course can be valuable for all lead auditors looking to extend their qualification to environmental and occupational health and safety management systems.

Temple's Managing Director, Jaz Tanwar adds: "It was brilliant to celebrate deugro group's successes during this special event. The timing was particularly pertinent as the event happened during World Quality Week, which aims to celebrate the many ways in which quality professionals, management systems and approaches can help organizations flourish, all factors that we were celebrating on this day with deugro group's achievements. We look forward to the next event in this series and also celebrating other customers in this meaningful way."

"The Lead Auditor training we received from DNV GL's training provider Temple was truly excellent. The training has not only given our team of auditors' additional knowledge and skills but has also enabled the business to adopt a fresh approach to auditing. At deugro group we do not view audits as a pass or fail exercise rather an opportunity to learn, develop, share good practices, and ultimately

deliver continuous improvement. We are all excited to see the benefits of this training in future internal and external audits.” concludes Andrew Rushmer, Director Global QHSES, deugro group.

END

About deugro group

The deugro group is comprised of four independent companies that offer far-reaching competence, experience and know-how in their fields of business:

deugro – Project freight forwarding
dship – Global ocean transportation
dteq – Transport engineering solutions
dhaulage – Specialized transportation assets

The deugro group redefines the one-stop-shop concept for complex logistics services and unifies the dedication, synergies and competences of all group companies. We stand for entrepreneurial, dynamic, best-in-class service and have a solid reputation for our client-centric and best minds approach. All group companies operate according to the highest QHSES and compliance standards.

The deugro group originates from deugro, the first company founded in 1924 in Frankfurt am Main, Germany. Today, the deugro group continues to be a family-owned enterprise with a strong financial foundation. This global, flexible and diversified network with local knowledge and experience is redefining industry standards now more than ever.
